NOTICE OF SUSPENSION FROM THE COLLEGE PRINCIPAL

I have received a suspension letter from the office of the College principal to my respective office as SRC President dated 24th September, 2024 of which I am writing officially to the general student populace to notify you all about the raised allegation against the high office of the general student body by the college principal Dr. Emmanuel Carsamer as a result of his personal conflict of interest which is an offence against the SRC stated clearly in the SRC Constitution in article 7 section (a), articles 7 section (b), article 7 (j), article 7 (m), article 10 section (a), article 10 section(c), article 10 section (d) and article 10 section(e). I further write to your notice as SRC president with our respective voting right of electing the high office of the student body and by your authority as general student populace, I understand the importance of communication and transparency within the student representative council (SRC) and I will continue to defend the welfare and the wellbeing of the general student body as a leader.

Unfortunately, due to my recent health condition and medical challenges that am facing led to my absence on campus for medical treatment and medication. I value my role as SRC president and I am dedicated to serve the student body.

Dear student body, humbly be informed that the rumor about this received letter from the College Principal to the office of the SRC president has no doubt.

I thank you very much for your support, kindness and your prayers in all these my unforeseen circumstances.
